EMPOWERING THE NEXT GENERATION

January 2024 Edition

JAN WORKSHOP UPDATES

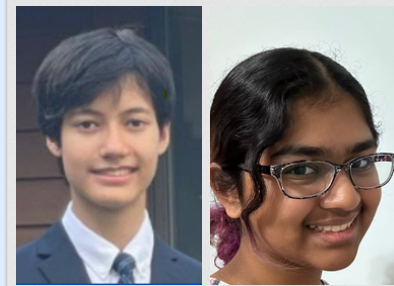

In the January workshop hosted by Accenture, our entrepreneurs are gearing up for their journey towards **finalists selection**. Our esteemed speakers, included **Robyn Mussler**, CEO/founder of NGT360, **Jessica Wilkholm**, QA Automation Lead of UI Professional Services, and **Kalpana Rupani**, Business & Integration Architecture Senior Manager at Accenture.

This phase serves as a platform for participants to fine-tune their products and services plus their presentations as they prepare for Pre-game and the Synapse Summit.

The **Synapse Summit**, is a premier convention of innovation, startups, and venture capitalists, awaits these aspiring entrepreneurs. This is always a finalist favorite of the program and where they get to experience what is trending in innovation, technology and the start up world in Tampa Bay. The finalists get to showcase their products, network with industry professionals, and attract the attention of venture capitalists eager to invest in the next wave of entrepreneurship.

Season 2023-24 Finalists will be featured in our February newsletter. Amazing talent for sure!
